PROFESSIONAL SUMMARY

Final Year Computer Science student with internship experience at Fauji Fertilizer Company and Pakistan Petroleum Limited. Built a Python dashboard at FFC that replaced manual asset tracking, and worked on database management at PPL. Seeking an entry-level role where I can apply my skills in a company that respects its people and offers room to grow.

TECHNICAL SKILLS

- **Languages:** Python (Pandas, NumPy, Streamlit, Plotly), SQL
- **Data:** Data Extraction, Data Cleaning, Data Visualization
- **Tools:** Excel, MySQL Workbench, Jupyter Notebook
- **Soft Skills:** Logical Thinking, Time Management, Adaptability

PROFESSIONAL EXPERIENCE

Information Technology Intern

03– 28 Aug 2026

Pakistan Petroleum Limited (PPL), Karachi

- Managed patient data for the medical department using Excel and SQL, ensuring accuracy and efficient record-keeping.
- Handled database updates and reporting via a UI-based software system to support department operations.

Information Technology Intern

July – Sep 2025

Fauji Fertilizer Company (FFC), Karachi

- Noticed RM office's manual Excel based asset tracking system was prone to errors with no real-time visibility.
- Built a dashboard using Python (Pandas for data cleaning, Plotly for visuals, Streamlit for interface) with login, search filters, and automated status reports.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

2023 – Present

Sindh Madressatul Islam University (SMIU), Karachi

FSc (Pre-Engineering) | Grade: A

2021

Matriculation | Grade: A-1

2019

PROJECTS

Library Management System: Built a desktop application using Python and Tkinter with MySQL integration. Features include user authentication, book borrowing/return tracking and analytics dashboard.

RFID Access Control System: Built a secure RFID access system using Arduino Uno and programming logic, that reads authorized tags and grants access. Achieved 95% reliability in authentication.

AI Report Writing Agent: Built an AI agent that takes a research topic, gathers information, and generates a structured report automatically for technical and business documentation.

CERTIFICATES

- Google Advanced Data Analytics | [Google](#)
- Programming in Python | [Coursera](#)
- AI & Data Science | [SMIT](#)

Events & Volunteering

Volunteer

21– 22 May 2025

International Conference on Computing and Related Technologies (ICCRT 2025), SMIU, Karachi
